

Samsung Galaxy Email Setup

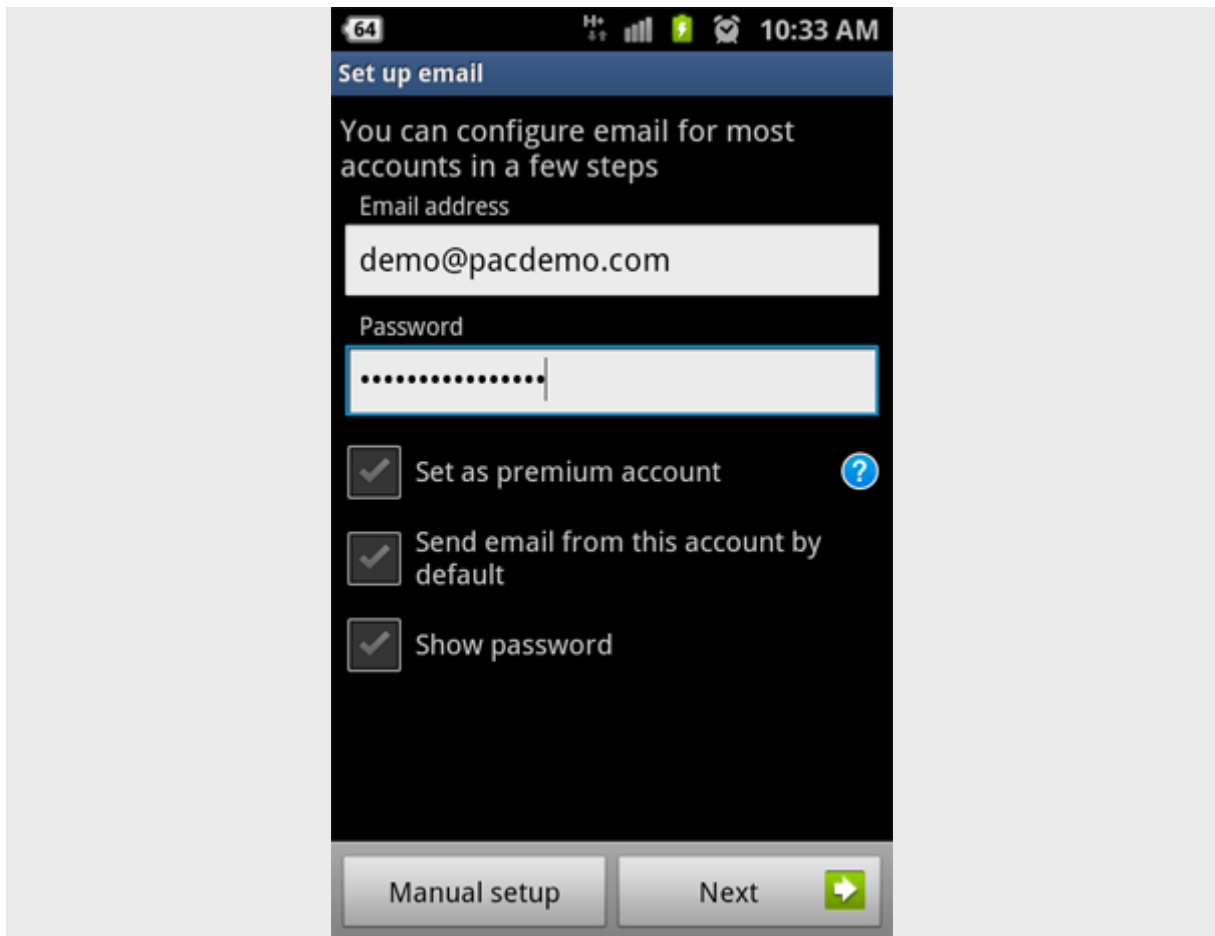

Setup Email Account for POP3/IMAP in your Samsung Galaxy Mobile

Please refer the following steps to setup email account in your mobile device.

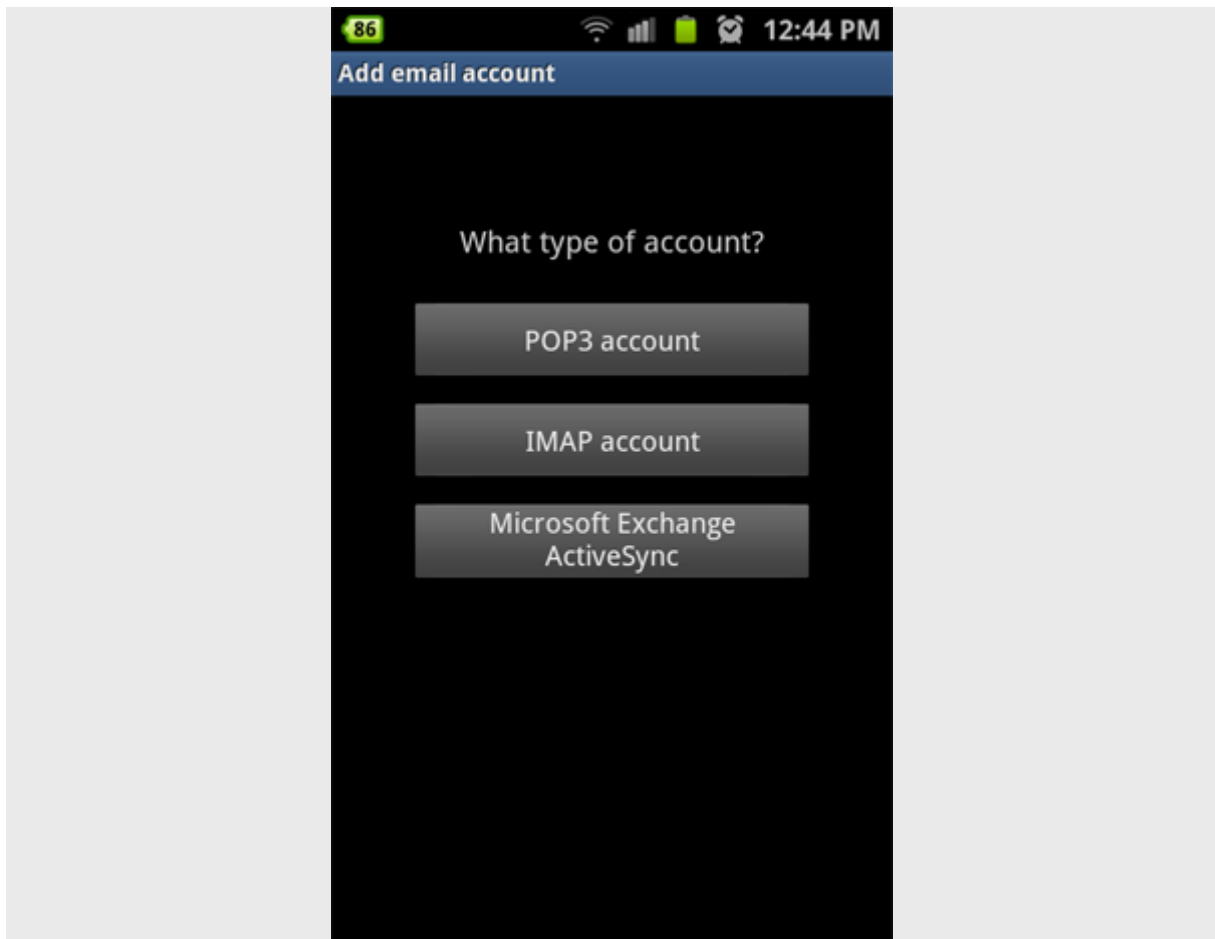

Step1: Go to Applications > Email > Click “Add account” to start setup

Step2: Enter your “Email address” and Password to correct field then click “Manual Setup”

Step3: Touch “POP3 account” / “IMAP account” to continue. (IMAP is preferred option for mobile)

Step4: Enter required information then click “Next”

- - Username : your full email address
- - Password : your mailbox password
- - POP3/IMAP Server : mail.(your domain name)
- - Port : use Default port (110 for POP3 or 143 for IMAP)

The screenshot displays the 'Incoming server settings' screen on an Android device. The status bar at the top shows the number 64, 3G signal strength, battery level, and the time 10:34 AM. The settings are as follows:

- User name:** demo@pacdemo.com
- Password:** Masked with 12 dots.
- POP3 server:** mail.pacdemo.com
- Security type:** None
- Port:** 110
- Delete email from server:** Never

A 'Next' button is located at the bottom of the screen.

Step5: Enter required information then click “Next” to complete

- - SMTP Server : mail.(your domain name)
- - Port: as specified in the email or hosting environment (either 25 or 587)
- - Select “Require sign-in”
- - Username : your full email address
- - Password : your mailbox password

The screenshot shows the 'Outgoing server settings' screen on an Android phone. The status bar at the top indicates the time is 9:42 AM. The settings are as follows:

- SMTP server: delta.studiocoast.com.au
- Security type: None
- Port: 26
- Require sign-in:
- User name: test@studiomedia.com.au
- Password: [masked]

A 'Next' button is located at the bottom of the screen.

6. Further Account Options

If all your settings correctly verify, you will see a final Account options screen where you can enter additional settings for your email account. Select Next to finish.
